SALES PERFORMANCE ANALYSIS REPORT

Executive Summary

This report presents an analysis of sales performance across branches, products, and order statuses using an Excel dashboard. The objective was to evaluate business performance, identify revenue drivers, uncover operational challenges, and provide recommendations for improving sales and efficiency.

The business generated a total revenue of **₦1,156,239** from **100 orders** with **1,075 units sold**. The analysis reveals that Kano branch was the highest revenue contributor, Watches emerged as the best-selling product category, and revenue was strongest at the beginning of the year before declining toward year-end.

Objectives

The analysis aimed to:

- Evaluate overall sales performance.
- Identify the highest-performing branch.
- Determine the most popular products.
- Analyze monthly revenue trends.
- Assess order fulfillment performance.
- Recommend strategies to improve revenue and operations.

Key Findings

KPI Summary

The Key Performance Indicator is as follows:

KPI	Value
Total Revenue	₦1,156,239
Total Orders	100
Quantity Sold	1,075

Revenue Performance

The business generated a total revenue of **₦1,156,239**.

Branch performance was as follows:

Branch	Revenue
Kano	₦463,706
Abuja	₦326,024
Lagos	₦366,509

Kano contributed the highest revenue while Abuja recorded the lowest revenue among the three branches.

Product Performance

The highest-selling products by order volume were:

1. Watch – 289 orders
2. Shoes – 293 orders
3. Bag – 281 orders
4. Box – 212 orders

These products accounted for the majority of customer demand.

Monthly Revenue Trend

Revenue peaked in **January (₦407,206)** and experienced a steady decline throughout the year.

The lowest revenue was recorded in **December (₦31,903)**, indicating a significant reduction in sales activity toward the end of the year.

Order Status Analysis

Order distribution showed:

Status	Orders
Cancelled	36
Pending	35
Shipped	29

The high number of cancelled and pending orders suggests inefficiencies in order processing and fulfillment.

Insights

Insight 1: Kano Is the Revenue Leader

Kano consistently outperformed other branches and generated the largest share of total revenue. This indicates strong customer demand and effective sales performance in the region.

Insight 2: Product Demand Is Concentrated

Watches and Shoes represent the strongest-performing product categories. These products appear to drive a substantial portion of business revenue.

Insight 3: Revenue Is Declining Over Time

The significant drop from January to December suggests a weakening sales trend that requires attention from management.

Insight 4: Operational Challenges Exist

The number of cancelled and pending orders exceeds shipped orders, which may negatively affect customer satisfaction and revenue generation.

Insight 5: Abuja Has Growth Potential

Although Abuja contributes meaningful revenue, it remains the lowest-performing branch and presents opportunities for expansion and improved marketing efforts.

Recommendations

1. Strengthen Underperforming Branches

Implement targeted sales campaigns and customer engagement initiatives in Abuja to increase market penetration and revenue.

2. Prioritize High-Demand Products

Maintain sufficient inventory levels for Watches and Shoes to avoid stock shortages and maximize revenue opportunities.

3. Reduce Order Cancellations

Review the causes of cancelled orders and improve order management processes, inventory tracking, and customer communication.

4. Increase End-of-Year Marketing Activities

Introduce promotional campaigns, discounts, and loyalty incentives during the latter months of the year to address declining sales.

5. Replicate Kano's Best Practices

Analyze Kano's sales strategies and apply successful approaches across other branches to improve overall business performance.

Conclusion

The analysis demonstrates that the business achieved over **₦1.15 million** in revenue, with Kano emerging as the top-performing branch and Watches among the most demanded products. Despite strong performance in certain areas, declining monthly revenue and a high volume of cancelled orders indicate opportunities for improvement.

By focusing on operational efficiency, strengthening lower-performing branches, and leveraging high-demand products, the business can improve customer satisfaction, increase revenue, and achieve sustainable growth
